- ✔ Tungsten Tip
- ✔ Spreader plate
- ✔ 2 x bolt mount
- ✔ Deep Fertiliser placement
- ✔ Seed height placement adjust
- ✔ Minimum tillage seeding Kit

Transport Width (m)	3.6m
Tyne Spacing (mm)/in	125mm (5")
Total Bin Capacity (L)	1,300L
Total Weight (Harrows & Discs) (Kg)	2,650Kg
Working Width (m)	3.5m
Metering System	Mechanical (Large Seed to Small Seed)
Calibration Mode	Turn handle or Distance measurement
Acreage Meter	Jackal Monitor: speed / acreage measurement

▶ ABOUT

Providing seed drills that offer seeding technology that is reliable, proven and has worked for ever in a day. If you are serious about accuracy, narrow spacing and simple "old school" technology, then speak with the Melbourne Tractors Group about the KB 3500 Direct Drill.

The Ken Built name originates from the owner of the Melbourne Tractors Group Mr. Ken Bennett. Melbourne Tractors Group is a family owned and managed business with more than 35 years in the earthmoving, construction and agriculture industries.

Melbourne Tractors Group provide the construction and agriculture industries with the finest world class machines, quality parts and attachments. The team constantly strive to employ new technologies and innovation products to keep owners and operators at the top of their industry.

The KB 3500 Direct Drill is solely imported and distributed by the Melbourne Tractors group.
